Isotype	Species Reactivity	Applications	Mol. Weight	Ref.Cell Line	Epitope	Immunogen
IgG1	human	WB, ELISA IHC	, 42 kDa	A431	N-terminus, interacts with SAPK2 (p38/CSBP)	N-terminal peptide conjugated to KLH

#### **Background and Specificity:**

Stress-activated Protein Kinases (SAPKs) are strongly activated in response to adverse stimuli such as heat and osmotic shock, UV light and other DNA-damaging reagents, and inhibitors of protein synthesis. They are also activated strongly in response to agonists that are released or produced under conditions of stress, such as proinflammatory cytokines. Stress-activated Protein Kinase 2 (SAPK2/p38) phosphorylates conserved Ser - Pro or Thr - Pro peptide motifs.

Mab SAPK2d-5H7 specifically interacts with the N-terminus of SAPK2δ.

**Purification:** The antibody was purified from serum-free cell culture

supernatant by subsequent thiophilic adsorption and size

exclusion chromatography.

lyophilized from 1 ml PBS / 0.09 % Na-azide / PEG and Sucrose Formulation:

Reconstitute with 1 ml H<sub>2</sub>O (15 min, RT). Reconstitution:

For long-term storage, freeze lyophilizate upon arrival (-20°C). Stability:

Upon reconstitution, aliquote and freeze in liquid nitrogen; reconstituted antibody can be stored frozen at -80°C up to 1 year. Thaw aliquots at 37°C. Thawed aliquots may be stored at 4°C up to

3 months.

Avoid repeated freeze / thaw cycles.

#0831: Cell lysate from untreated A431 cells **Positive Control:** 

0.5 µg/ml for HRPO/ECL detection Immunoblotting:

Recommended blocking buffer: Casein/Tween 20 based blocking and blot incubation buffer, e.g. nanoTools product

#3031-500/CPPT or #3031-3000/CPPT.

ND Immunoprecipitation:

Immunocytochemistry:

ND

use at 0.05 µg/ml **ELISA:**

Detection of endogenous SAPK2 delta

Whole cell lysates of serum starved tumor cells (20.000 cells per lane) were applied to SDS-PAGE and transferred to a PVDF membrane. The immunoblot was probed with mab SAPK2d-5H7 (0.5 µg/ ml) for 1h at RT and developed by ECL (exp. time: 30 sec)

lane 1: MDA-MB 231; lane 2: MDA-MB 468; lane 3: MCF-7; lane 4: T47D: lane 5: SW480: lane 6: SW620
